Fair Value Assessment	
Fair Value Definition	Fair value means the relationship between the overall price paid by the end customer and the quality of the product(s) and/or service(s) received.
	MGAM's fair value assessment considers value measures such as claims history, complaints, commission and fees, staff remuneration, barriers to complaints/claims/cancellation and premium finance arrangements.
	We have reached this conclusion after consideration of the price, benefits and features, available MI and the distribution chain involved (this is a non-exhaustive list).
	You should be satisfied that, in offering this product, it meets fair value expectations.
Commissions/Fees	Brokerage is variable up to 30% for cover holders when operating under a delegated authority, wholesale brokers and 27.5% for retail brokers. Commission percentages are in keeping with market standards
Premium	Suitable for a broad range of premium levels
Distribution chain value	The distribution strategy represents value for money, commissions and fees reflect services provided and there are no unnecessary intermediaries in the chain. The overall method of distribution is cost effective and aim to provide proactive solutions when customer vulnerabilities are notified to us via our broking partners.

Distributions channels	The distribution is via a single insurer to our broker partner panel
